01 Accessing WordPress Admin

To manage your store, log in to your store's administration dashboard:

```
URL: https://aurika.online/wp-admin
```

1. Enter your **Username / Email Address** and **Password**.
2. Click **Log In** to reach the main WordPress Dashboard.
3. On the left-side vertical black menu bar, you will find all management sections (Appearance, Products, WooCommerce, Pages, Orders).

02 The Theme Customizer: Your Primary Control Panel

Virtually all text, images, titles, headings, reviews, and store rules can be modified with a live visual preview in the **Customizer**:

```
Location: WP Admin → Appearance → Customize → Aurika Theme Settings
```

When you open the Customizer, a preview of your website appears on the right, and the settings panel is on the left. Any change you type immediately updates the preview on the right in real time!

> **Golden Rule:** After making edits in the Customizer, always click the blue **"Publish"** button at the very top of the left sidebar to save your changes to the live site.

03 Announcement & Marquee Ticker Bar

```
Location: Appearance → Customize → Aurika Theme Settings → 📢 Announcement & Marquee Bar
```

The top scrolling ticker bar runs continuously across both desktop and mobile screens.

Setting Name	What It Controls	Example / Default
Show Announcement Bar	Turn the top marquee strip ON or OFF completely.	Checkbox (Checked = Active)
Marquee / Ticker Text	The scrolling text content. Separate items with bullets (•) or dashes.	`HAND-POURED SCENTED CANDLES • FREE SHIPPING ABOVE RS. 5,000 • CASH ON DELIVERY`
Search Placeholder	The watermark prompt text shown inside the search pop-up.	`Search candles, art kits...`

04 Hero Slider & Banners (Homepage Top)

```
Location: Appearance → Customize → Aurika Theme Settings → 🖼️ Hero Slider & Banners
```

The homepage features an automated, full-bleed luxury image carousel with smooth slide transitions and a prominent Call to Action (CTA) button.

Setting Name	What It Controls	Recommended Size / Value
Slide 1 Background Image	The primary first image shown on homepage load.	High-res JPG (1920 × 800px or similar).
Slide 2 Background Image	The second slide that auto-transitions after 5s.	High-res JPG (1920 × 800px).
Hero Button Text	The text written inside the white oval CTA button.	`SHOP NOW` or `EXPLORE COLLECTION`
Hero Button Link	Where the button sends users when clicked.	`/shop` or `/product-category/scented-candles`

> **Image Upload Tip:** To change a slide image, click "*Change Image*", upload your new photo from your phone or laptop, and select it. The dark luxury overlay is applied automatically by the theme for text readability!

05 Homepage Sections (Trending & Categories)

`Location: Appearance → Customize → Aurika Theme Settings → 🏠 Homepage Sections`

Control the titles, item quantities, and category displays on your homepage.

Setting Name	Functionality	Default Value
Trending Section Title	Main heading above the top-selling products grid.	`TRENDING NOW`
Trending Section Subtitle	Italic subtitle below the heading.	`Our Most-Loved Creations`
Trending Product Count	How many products to show in the trending grid (e.g. 4, 8, 12).	`8`
View All Button Text	Text on the outline button below the trending grid.	`View All Products →`
Category Section Title	Main heading above category cards.	`SHOP BY CATEGORY`
Category Section Subtitle	Italic subtitle below the category heading.	`Explore Our Collections`

> **Dynamic Categories:** The "Shop by Category" section automatically displays all categories created under **Products → Categories** that contain active products. To add a new category card on the homepage, simply add a category in WooCommerce and set its Thumbnail Image!

06 DIY Art Kit Showcase Section

`Location: Appearance → Customize → Aurika Theme Settings → 🎨 DIY Art Kit Showcase`

The dedicated split-screen spotlight section for Aurika's screen-free children's art kits.

Setting Name	Description & Purpose
Eyebrow	Gold small caps category tag (e.g. `FOR CHILDREN AGES 3–12`).
Main Title	Large heading (e.g. `Spark Creativity. Beyond the Screen.`).
Description Paragraph	Descriptive story text detailing the concrete toys, paints, and brush.
Custom DIY Image	Upload a photo of children painting or of the DIY kit unboxing.
Button Text & Link	Button label (e.g. `EXPLORE DIY KITS →`) and destination link.

07 Promotional / Launch Offer Banner

```
Location: Appearance → Customize → Aurika Theme Settings → 🎉 Promotional / Offer Banner
```

The full-width callout banner positioned above the footer across the homepage.

Setting Name	What It Controls	Default Value
Banner Tag Badge	Gold pill label at top of the offer banner.	`LAUNCH PROMOTION`
Banner Heading	Large headline for special sales or shipping announcements.	`Free Shipping on Orders Above Rs. 5,000`
Banner Subtitle	Detailed terms or promo description.	`Rs. 350 flat rate delivery across Pakistan...`
Button Text & Link	Call to action button and link.	`SHOP NOW →` → `/shop`

08 Customer Testimonials (Happy Customers)

```
Location: Appearance → Customize → Aurika Theme Settings → 💬 Testimonials (Happy Customers)
```

You can edit **all 6 customer testimonials** displayed in the interactive customer review carousel.

Review Item	Editable Fields	Current Defaults
Section Headers	Section Eyebrow & Section Title	`TESTIMONIALS` / `HAPPY CUSTOMERS`
Review 1	Quote, Customer Author, Purchased Product	Ayesha Khan (Lavender Candle)

Hero Eyebrow	Small gold badge text above the shop page title.	`WHERE ART MEETS ELEGANCE`

15 Navigation Menus & Custom Menu Toggle

```
Location: WP Admin → Appearance → Menus & Appearance → Customize
```

By default, the theme displays the signature 6-link luxury navigation bar (**Home, Shop, Scented Candles, DIY Art Kits, About Us, Contact Us**) with uppercase gold-accent styling.

1. If you want to use a custom menu: Go to **Appearance** → **Menus**.
2. Create or select your menu, add your desired pages or custom links, and save.
3. Assign the menu to **"Primary Navigation (Header)"** and/or **"Mobile Menu (Overlay)"**.
4. Go to **Appearance** → **Customize** → 📢 **Announcement & Marquee Bar**.
5. Check the box **"Enable Custom Menu from WP Menus"** and click **Publish**.

16 Editing Legal & Policy Pages

```
Location: WP Admin → Pages → All Pages
```

Every policy page on Aurika can now be customized directly using the WordPress block/text editor:

Page Title	URL Slug	How It Works
Privacy Policy	`/privacy-policy`	Click *Edit* on Privacy Policy. Type or paste your own custom policy clauses. If left blank, it automatically shows the complete 18-section legal template.
Shipping Policy	`/shipping-policy`	Edit in Pages editor. Shows dynamic 3-card perk grid with current shipping rates from Customizer.
Returns Policy	`/returns-policy`	Edit in Pages editor. Falls back to damage replacement guidelines with your current WhatsApp number.
Terms & Conditions	`/terms-conditions`	Edit in Pages editor. Falls back to full 12-clause store terms.
About Us	`/about`	Edit in Pages editor. Hero text and bottom CTA can also be customized via Customizer under *Page Hero & Defaults*.
Contact Us	`/contact`	Edit in Pages editor. You can add Google Map embeds, studio photos, or custom intro text above the form.

17 Step-by-Step: Adding Scented Candles

```
Location: WP Admin → Products → Add New
```

Adding a luxury scented candle takes less than 2 minutes. The theme automatically configures the **1-Pack, 2-Pack (10% Off), and 3-Pack (15% Off)** interactive cards for customers!

1. **Product Name:** Enter the candle's name (e.g. *Amber & Vanilla Scented Candle*).
2. **Main Description Box:** Write the sensory description and fragrance notes:
   - *Top Notes:* Bergamot, Warm Amber.
   - *Heart Notes:* French Vanilla, Tonka Bean.
   - *Base Notes:* Sandalwood, White Musk.

   Note: This text automatically populates the first ***"About The Fragrance"*** *accordion on the product page!*
3. **Product Short Description:** Enter a 1-line luxury teaser (e.g. *Handcrafted organic soy candle with soothing vanilla notes*). This displays as the subtitle under the main price.
4. **Product Data Box:**
   - Product Type: Keep as **"Simple product"**.
   - **Regular Price (Rs.):** Enter single candle price (e.g. `1299`). The theme's bundle math automatically calculates:
     • 1-Pack = Rs. 1,299
     • 2-Pack = Rs. 2,338 (10% Off)
     • 3-Pack = Rs. 3,312 (15% Off)
5. **Product Image (Right Column):** Click *"Set product image"* to upload your primary aesthetic photo (minimum 1000 × 1000px square).
6. **Product Gallery:** Upload 2–4 photos (close-up of wax, lifestyle in room, packaging unboxing).
7. **Product Categories (Right Column):** Check **"Scented Candles"**.
8. Click the blue **"Publish"** button. Your candle is live with pack discounts and sticky add-to-cart!

18 Step-by-Step: Adding DIY Art Kits

```
Location: WP Admin → Products → Add New
```

DIY Art Kits feature a custom **Small Kit (4 Toys) vs. Big Kit (8 Toys)** selector with paints & brush badges:

1. **Product Name:** Must include the word **"DIY"** or **"Art Kit"** in the title (e.g. *Safari Animals DIY Art Kit*).
2. **Main Description:** List the figures included (e.g. *Lion, Elephant, Giraffe, Zebra*), paint pots, brush, and non-toxic certificate.
3. **Product Data:** Set Regular Price to `299` (or your base kit price). The theme's DIY selector will automatically display:
   • **Small Kit (4 Toys):** Rs. 299
   • **Big Kit (8 Toys):** Rs. 599 (Best Value Badge)
   (Both prices can be changed anytime in Appearance → Customize → 💰 Pricing & Shipping Rules).
4. **Category:** Check **"DIY Art Kits"**.
5. **Product Image:** Upload a colorful photo showing the concrete toys, paints, and brush together.
6. Click **Publish**.

19 Managing Customer Orders & Cash on Delivery (COD)

```
Location: WP Admin → WooCommerce → Orders
```

When a customer completes checkout on Aurika, their order instantly appears under **WooCommerce → Orders**.

1. **Review New Orders:** New orders have status **"Processing"** (for prepaid) or **"On Hold" / "Processing"** (for Cash on Delivery).
2. **View Customer Details:** Click the customer's name or Order ID to view:
    - Customer Phone Number (for WhatsApp confirmation).
    - Full Delivery Address & City.
    - Selected Pack Size (e.g. *2 Pack* or *Big Kit – 8 Concrete Toys*).
    - Total Amount + Shipping Fee (Free if ≥ Rs. 5,000, or Rs. 350 flat).
3. **WhatsApp Order Confirmation:** Before dispatching COD parcels, send a quick confirmation WhatsApp message to the customer to ensure address accuracy and prevent courier return fees.
4. **Update Order Status:**
    - When parcel is handed to the courier (Trax, Leopard, PostEx, TCS), change status to **"Completed"**.
    - An automated dispatch email is sent to the customer automatically!

20 Approving Reviews & LiteSpeed Cache Purging

```
Location: WP Admin → Products → Reviews & LiteSpeed Cache Toolbar
```

Task	Instructions
Customer Reviews Approval	When customers submit a review on a product page, it awaits moderation in **Products → Reviews**. Hover over the review and click **"Approve"**. The 5-star rating and comment will appear publicly immediately!
Purging LiteSpeed Cache	If you change a price, picture, or banner in the Customizer and it doesn't show right away on your phone or incognito tab, LiteSpeed is serving the cached HTML. In the top black admin bar, hover over the green LiteSpeed diamond icon and click **"Purge All"**. Then hard-refresh your browser (`Ctrl + F5`).
Inventory Low-Stock Alerts	Set email alerts for low inventory under **WooCommerce → Settings → Products → Inventory** so you never run out of raw natural wax or kit supplies during sales.
